Dear Colleague,

Call for Abstracts Now Open

Do you or your organisation have a quality improvement, or new patient initiative to share?

If so, you are invited to submit an abstract to be considered for presentation as a poster or oral session at the [International Forum on Quality and Safety in Health Care](#) in Nice, France from 20-23 April 2010.

[Submit An Abstract!](#)

We are keen to hear from you if you have new work with results to present or important cultural or leadership initiatives that have stimulated change (and whether that change was an improvement). Perhaps you have a new tool or method that you have initiated and you want to share experiences and results?

Instructions for submission are available [here](#).

If you want to find out more about the Forum, you can view [video](#) coverage from the last Forum online.

In the meantime, here are five good reasons to submit an abstract:

- Showcase your achievements to key international opinion leaders
- Communicate your organisation's work
- Enhance your organisation's profile
- Network with others in your area/field
- Share success, learn from failures

We look forward to hearing from you.

The International Forum Team
